A live webcast and replay will be accessible from the Company's website at https://investor.minktherapeutics.com/events-and-presentations and at www.virtualshareholdermeeting.com/INKT2025.

About MiNK Therapeutics

MiNK Therapeutics is a clinical-stage biopharmaceutical company pioneering the development of allogeneic invariant natural killer T (iNKT) cell therapies and precision-targeted immune technologies. MiNK's proprietary platform is designed to restore immune balance and drive cytotoxic immune responses across cancer, immune-mediated diseases, and pulmonary immune failure. MiNK's lead asset, AGENT-797, is an off-the-shelf, allogeneic iNKT cell therapy currently in clinical development for the treatment of graft-versus-host disease (GvHD), solid tumors, and critical pulmonary immune collapse. MiNK is also advancing a pipeline of T cell receptor (TCR)-based therapies and neoantigen discovery tools that enable tumor- and tissue-specific immune activation with broad potential application. With a scalable, cryopreserved manufacturing process and a differentiated mechanism that bridges innate and adaptive immunity, MiNK is committed to developing next-generation immune reconstitution therapies that are accessible, durable, and applicable across a wide range of indications. For more information, visit https://minktherapeutics.com or @MiNK_iNKT. Information that may be important to investors will be routinely posted on our website and social media channels.
